

A decorative graphic on the left side of the slide, consisting of a vertical line and several overlapping rectangular blocks in green, blue, and brown.

REEIS

A small icon of a bar chart with three bars (green, blue, brown) and a red line graph showing an upward trend.

Measuring Results

Research, Education, and Economics Information System An Introduction

September 16, 2005

Valerie Boykin and William J. Bristow

Agenda

- What is REEIS?
 - What does it do?
 - Why would I use it?
 - Who can use it?
 - What data is in it?
 - How do I get to it?
 - How is it organized?
 - Who is responsible for building it?
 - Who do I contact about it?
- What's in the future?
 - Data marts
 - User driven delivery
 - User interface improvements
- Demonstration

What is REEIS?

Description

- A source of data:
 - REEIS collects, consolidates, and stores data about research, education and extension efforts conducted by USDA and its partner institutions
- With user-friendly analysis tools included:
 - Tabular reports with drill up and drill down capability and drop down lists to select parameters
 - Graphical reports
 - Data downloads
 - Text search
- That is readily accessible:
 - Available to everyone through the Internet

Uses

- Better enable analysis, management, and evaluation of USDA supported programs, projects, and activities
 - How has enrollment in EFNEP affected Head Start enrollment?
 - What is the trend in the number of students awarded degrees in Agricultural Economics?
 - What is the reported level of expenditure for each National Goal in 2000 vs. 2001?
- Provide a means for data retrieval across programs

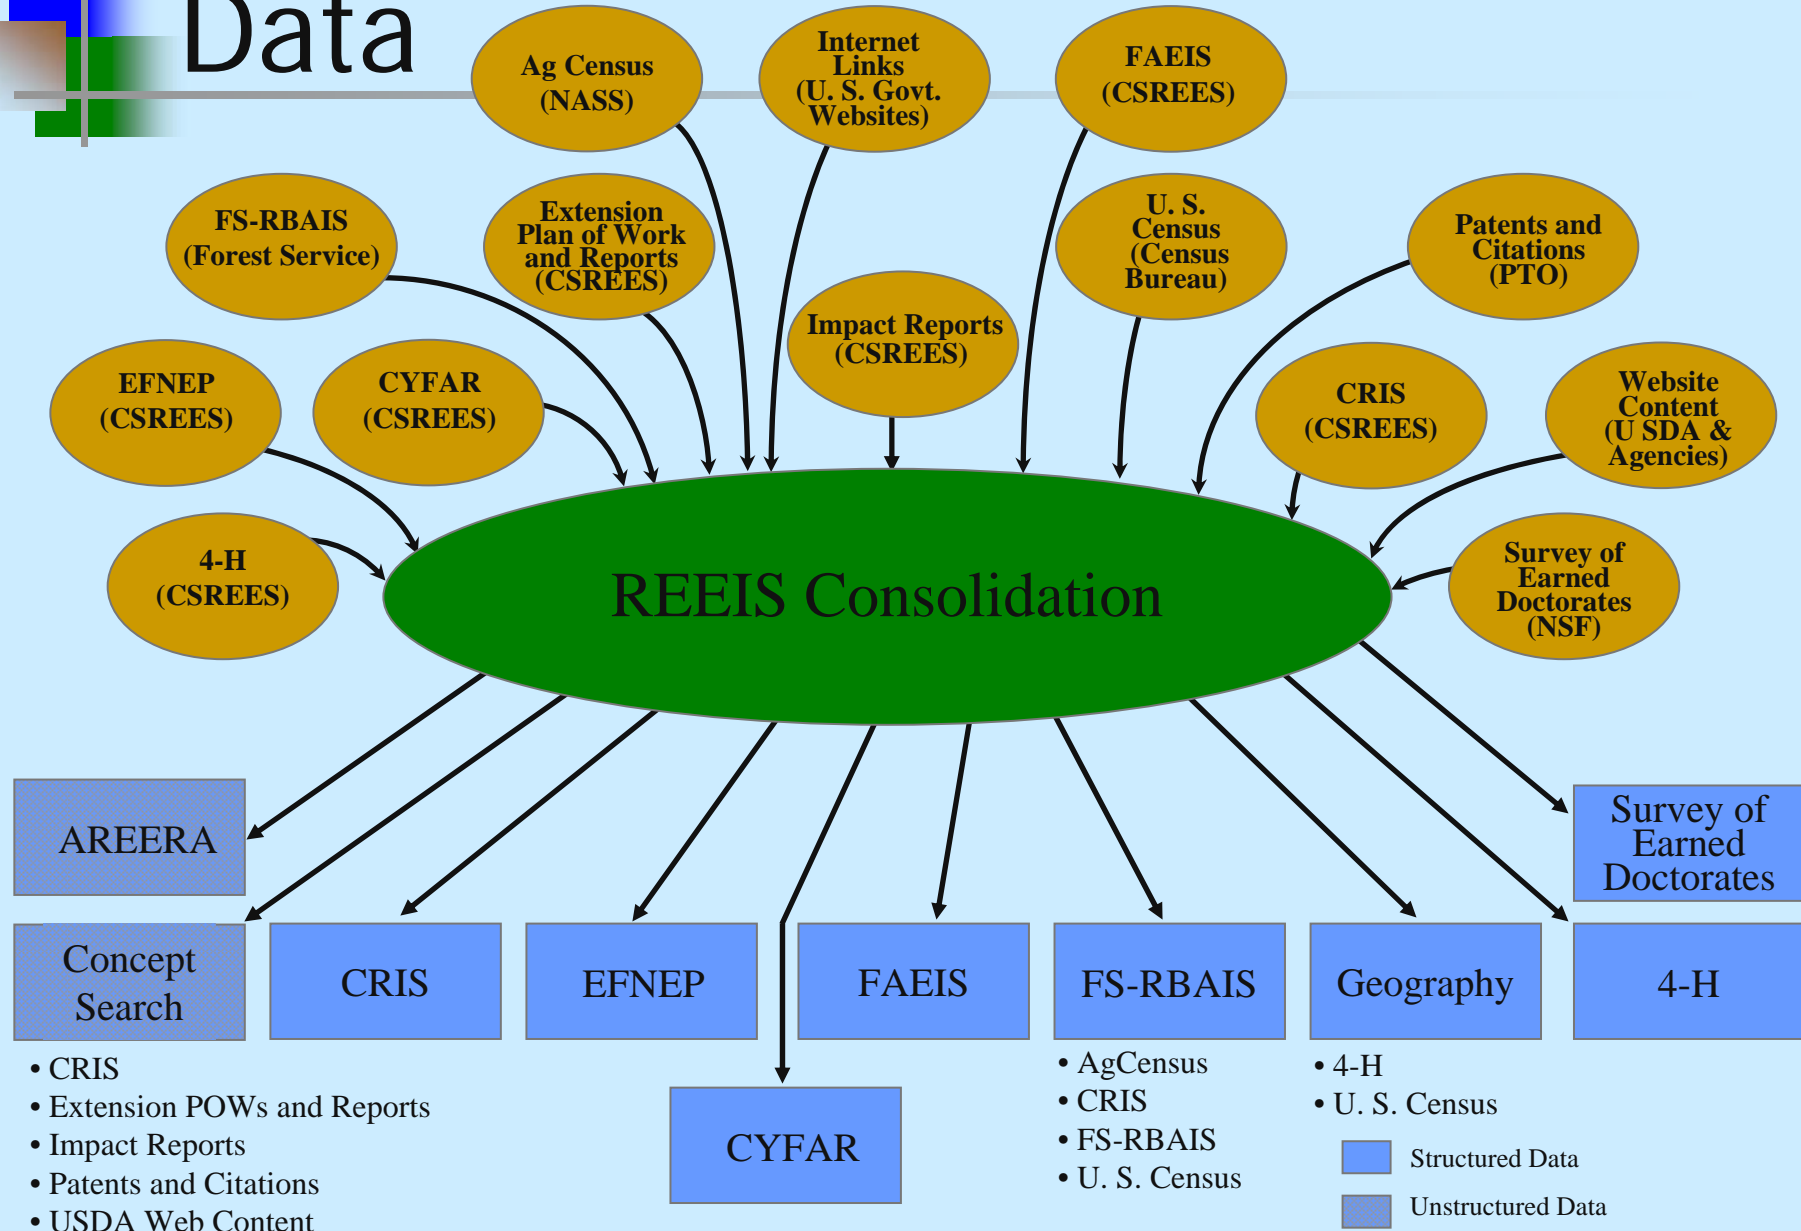

Target Users

- National Program Leaders
- Program analysts
- Partners in research, education, and extension efforts
- The Public

www.reeis.usda.gov

The screenshot shows the REEIS website in Microsoft Internet Explorer. The browser's address bar displays "www.reeis.usda.gov". The website header includes the USDA logo and the text "United States Department of Agriculture Research, Education & Economics Information System". A navigation menu contains links for "Home", "About REEIS", "Reports", "Document Search", "Related Links", "Help", and "Contact Us".

The main content area is titled "About REEIS" and includes the following text:

You are here: Home

About REEIS

The Research, Education, and Economics Information System (REEIS) is a source of information on the research, education and extension programs, projects and activities of the U. S. Department of Agriculture (USDA) and its partner institutions in the following areas:

- Food
- Agriculture
- Natural resources

It has been designed to serve all with an interest in research, education and extension efforts performed or financially supported by USDA. The ultimate objective of the system is to enable users to measure the impact and effectiveness of research, extension and education programs.

The Cooperative State Research, Education and Extension Service (CSREES), an agency in the Research, Education and Economics (REE) mission area of USDA, developed REEIS.

What's New

Children, Youth, and Families at Risk Program (CYFAR) is based on research on effective programs for at-risk youth and families and on the human ecological principle of working across the lifespan in the context of the family and community.

The Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) amended the Smith-Lever Act, the Hatch Act, and the National Agricultural Research,

The browser's taskbar at the bottom shows several open applications, including "MSN.com - Mi...", "REEIS_CSREE...", "REEIS_Briefin...", and "Look & Feel M...". The system clock indicates the time is 3:33 PM.

REEIS BRIEFING

To view a briefing describing REEIS, its purpose, and contents, click on the link [REEIS Briefing \(PPT; 1.39MB\)](#)

REEIS DATA

REEIS imports data from a number of sources, standardizes and aggregates it for effective reporting, and presents it to users through through datamarts where datamarts are collections of data targeted to a specific purpose and/or audience. For example, the 4-H datamart is targeted for users interested in the 4-H program; the datamart combines data from the 4-H program and the U. S. Census, and includes links to related websites to give a picture of 4-H enrollment over time and the context of the U. S. population of students who could potentially be enrolled. For a graphical presentation of REEIS data sources imported into REEIS and REEIS datamarts, click on the link [REEIS Data \(PPT; 46 KB\)](#)

MODES OF DATA PRESENTATION

REEIS data is presented as

- 1) Tabular Reports
- 2) Graphs
- 3) Unstructured Text
- 4) Links to Related Websites

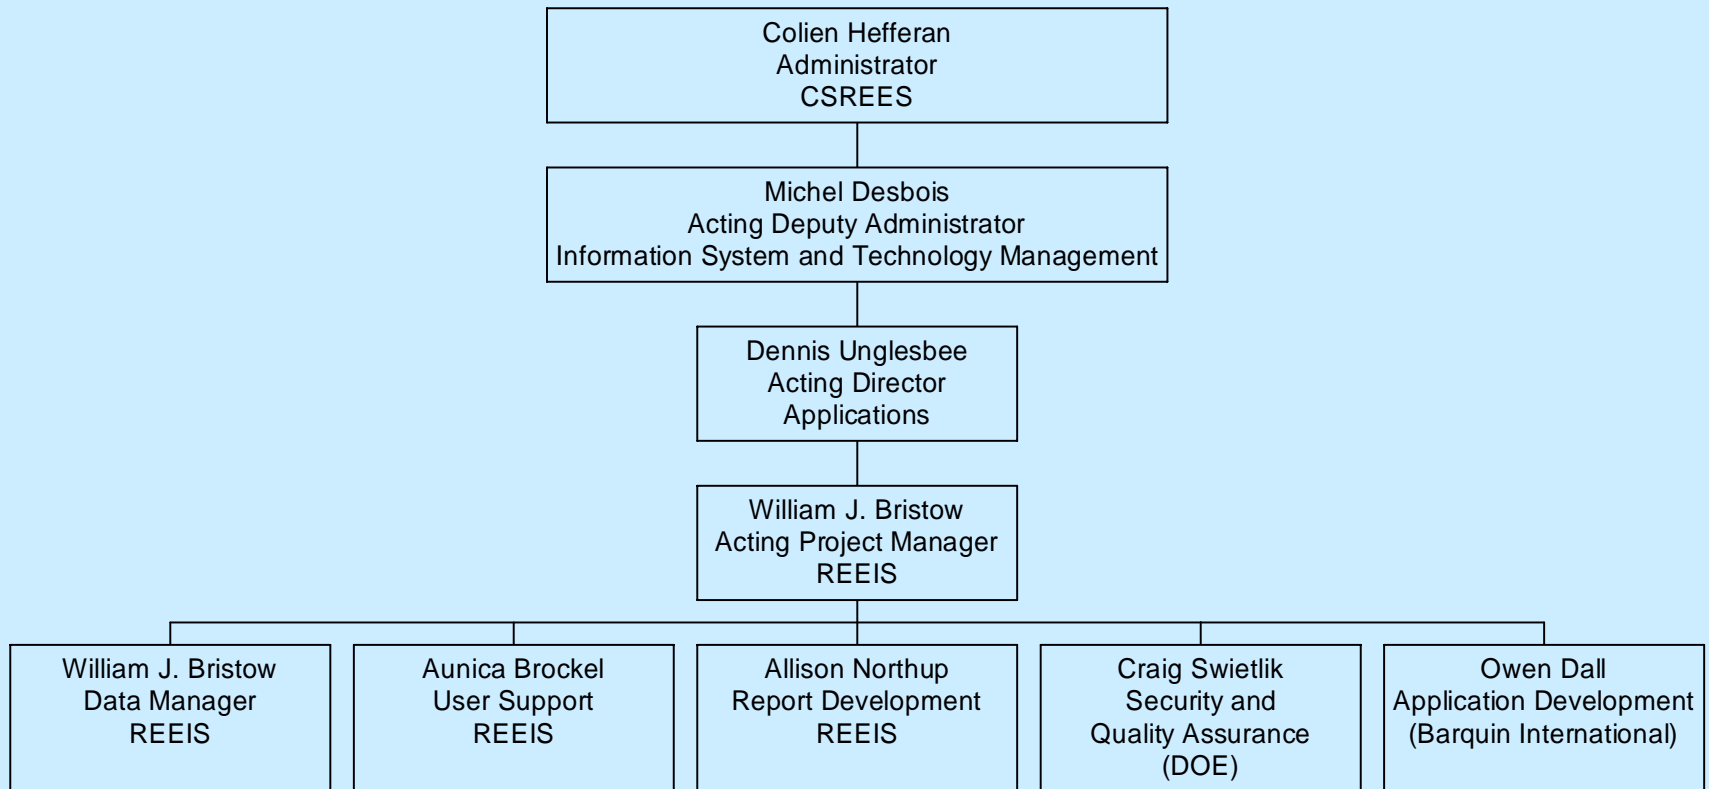

A "Quick Links" sidebar on the right contains the following links:

Data Mart Descriptions

Current Research Information System (CRIS) Data Mart

- The CRIS Data Mart delivers current research expenditure, principal investigator, and scientist years data. Specific functionality includes the following:
 - Semi-canned user reports (30 reports)
 - Drop down lists for choice of state, funding source category, funding source name, research problem area, institution, year, field of science, subject of investigation, performance goal, and agency service category
 - Data export in numerous formats (*.xls, *.htm, *.txt, *.csv, *.prn, *.dcs, *.dif, *.slk, *.wks)
 - Annual data refresh

Expanded Food and Nutrition Education Program (EFNEP) Data Mart

- The EFNEP Data Mart delivers program benefit and impact data. Specific functionality includes the following:
 - Semi-canned user reports (19 reports)
 - Drop down lists for choice of year, state, and volunteer type
 - Drill up / drill down capabilities (i.e., region → state)
 - Data export in numerous formats (*.xls, *.htm, *.txt, *.csv, *.prn, *.dcs, *.dif, *.slk, *.wks)
 - Annual data refresh

Food and Agricultural Education Information System (FAEIS) Data Mart

- The FAEIS Data Mart delivers university and college enrollment, degree, and faculty data. Specific functionality includes the following:
 - Semi-canned user reports (13 reports)
 - Drop down lists for choice of year, state, classification of instructional programs (CIP), and institution
 - 'Student Degrees Awarded by Ethnicity over Time' has embedded graph
 - Drill up / drill down capabilities (i.e., region → state)
 - Data export in numerous formats (*.xls, *.htm, *.txt, *.csv, *.prn, *.dcs, *.dif, *.slk, *.wks)
 - Annual data refresh

Forest Service - Research Budget Attainment Information System (FS-RBAIS) Data Mart

- The FS-RBAIS Data Mart delivers forestry research, budget, and publication data. Specific reporting functionality includes the following:
 - Semi-canned user reports (14 reports)
 - Drop down lists for choice of year, state, research topic, area, and station name
 - Drill up / drill down capabilities (i.e., region → state)
 - Data export in numerous formats (*.xls, *.htm, *.txt, *.csv, *.prn, *.dcs, *.dif, *.slk, *.wks)
 - Annual data refresh

4-H Data Mart

- The 4-H Data Mart delivers 4-H youth development enrollment data. Specific functionality includes the following:
 - Semi-canned user reports (24 reports)
 - Drop down lists for choice of year, state, region, curriculum category
 - Drill up / drill down capabilities for some reports (i.e., region → state)
 - All trend reports have graphs, 'Census Data' reports have graphs
 - Data export in numerous formats (*.xls, *.htm, *.txt, *.csv, *.prn, *.dcs, *.dif, *.slk, *.wks)
 - Annual data refresh

Geography Data Mart

- The Geography Data Mart delivers, by states and outlying areas, research project and expenditure summaries, research emphasis breakdown, and selected U. S. Census and agricultural census data. Specific functionality includes the following:
 - Semi-canned user reports (3 reports)
 - Links to the Economic Research Service (ERS) website for state fact sheets, and to CSREES state partner websites
 - Drill down capabilities for research expenditures (i.e., from organization type to funding source)
 - Data refresh varies with source

CYFAR Data Mart

- The Children, Youth, and Families at Risk Program (CYFAR) Data Mart delivers program content, delivery method and population data. Specific functionality includes the following:
 - Semi-canned user reports (14 reports)
 - Drop down lists for choice of year, state, recipient age group, location within state, program content, and delivery method
 - Multiple select feature (4 of the 14 reports) allows users to select multiple choices from a drop down list
 - Drill up / drill down capabilities (i.e., state → location in state)
 - 'Population Served by Age', 'Population Served by Race/Ethnicity and Year', 'Multi-Select Delivery Methods', and 'Multi-Select Program Contents' reports have embedded graphs
 - Data export in numerous formats (*.xls, *.htm, *.txt, *.csv, *.prn, *.dcs, *.dif, *.slk, *.wks)
 - Annual data refresh

AREERA Data Mart

- The AREERA Data Mart provides access to research and extension Plans of Work and Accomplishment Reports. Specific functionality includes the following:
 - Viewing files that contain the text of documents in PDF format
 - Drop down lists for choice of year and state, and a check box to include Plans of Work, and/or Accomplishment Reports in the list of viewable documents
 - Search of AREERA documents using Concept Search
 - Annual data refresh
